

# New Home

Senior Placement Assistance  
408-802-0215

New Home is a privately owned and operated agency that helps individuals and families find placement for themselves or a loved one when living alone is no longer an option.

We want you to be comfortable in your "New Home" so, through the entire process, your needs, preferences and safety are our top priority. We work with Board & Care Homes, Assisted Living Communities and Memory Care Communities so we can provide the best option based on your care needs, financial needs, and desired location.

Because we are compensated by the Communities that we partner with, our service is free to you, our client.

Welcome to your New Home!

An **Assisted Living Community**, also referred to as an **ALF**, offers a housing alternative for older adults who may need help with dressing, bathing, eating, and toileting, but do not require the intensive medical and nursing care provided in **Skilled Nursing Facilities (SNF)**.

A **Board & Care** is a smaller community, typically 5 or 6 beds and most often a single family home. Many of the same services and support offered in a larger ALF are also offered in a Board & Care, but with some differences.

**Memory Care Communities** offer specialized services for residents suffering from Alzheimer's Disease or other form of Dementia or memory loss. Many ALFs also offer specialized Memory Care programs.

**ALF, Board & Care and Memory Care** communities are all licensed and inspected by the State Department of Social Services to insure that your health and safety needs are met at all times. Staff that are employed by these communities must meet strict state requirements including background checks, fingerprinting and physicals.

Ask us about our transportation  
and in-home care service.
